A Word on Model Zoos

Which Framework to Use?

Framework	Initial Release	Focus
 PyTorch	September 2016	General deep learning library
 PyTorch Lightning	May 2019	Interface for PyTorch that makes it easier to read and reproduce.
 TensorFlow	November 2015	General deep learning library
 Keras	March 2015	Easy-to-use interface to TensorFlow, but the latest version now also provides an interface to PyTorch and Jax.
 (Jax)	May 2022	Speeding up some parts of model training and providing easy scaling across multiple GPUs

A Vision Quest

01_deep_learning_tour.ipynb

This notebook will walk you through instantiating a pre-trained vision model and testing it against new images!
